Grimm's second season ends on Tuesday night with the arrival of at least one real villain to Portland and a lot of action, so that the previews are reliable. As we wait, here is a recap of the season so far, followed in the final with some speculations in the final. The second season so far... We leave at the end of the first season, with Juliette falling into a coma after being scratched by Adalind's cat, Nick's dead mother is doing a visit and helping with a troublesome visitor out of town, and Hank thinking she's going crazy to see Wesen's faces and shoot in empty closets. Although she appeared near the end of last season, we were presented properly to Kelly Burkhardt in the season premiere, after she jumped in the middle of a fight between Nick and Kimura (a man with ties with the dragon's language and the real families, and who was behind the key). Kelly's appearance surprises Nick, who thought she and her father had died in a car accident in New York State when Nick was a child. We learned from Kelly that Kimura & Associates tried to kill her because she had the Zakythos coins. It wasn't Kelly, but a friend who died that night. As the killer thought he had killed a Grimm, he took his friend's head, so as a result, the body was never properly identified. Nick's aunt Marie, who created him, knew Kelly was alive. We learned from Kelly that Nick's aunt gave him one of seven, and together they mark a place that Nick's ancestors hid him from royalty during the crusades. We see Kelly ditching plans to leave the city on a bus with the coins, which she should destroy, and instead escape in an unknown direction when Nick was no longer observing it. Monroe and Rosalee approach the season, and Rosalee becomes giving moms and mothers to any of the Diseases, including unpleasant love signs of love by a blond Hexenbiest. One of Monroe and Rosalee's greatest obstacles comes in the form of a proximated death fright when Monroe is pointed by Mia, a friend of the reals and Renard, because he is a friend of a Grimm. The other obstacle is a lack of irritating privacy when Nick moves temporarily with Monroe. A unpleasant cat scripting from Adalind cat is very high of infection when it results in a coma, loss of selective memory (poor Nick is forgotten), and a violent and intense lust for the Nick's boss, capt. Renard. Rosalee Apothecary comes to rescue and cure both Juliette and Renard for her luxury sorcerer, and puts Juliette back on the right track on a psychodrama trip by the memory strip. She eventually remembers Nick and with some help from Monroe, Rosalee and Bud, comes to learn what Wesen and Grimms are. Nick and Juliette seemed to take steps to meet in the last episode, which probably means that there is problems with them both at the end. After Nick says Hank that what he is seeing is real, and that Nick is also Wesen, Hank adjusts to this new knowledge remarkably well and becomes a productive member of the Nick team. He has a small set-time setback when Adalind arrives back from the city and sends a Verrat group to hit him. Hank, however, recovers and embraces his new knowledge, and becomes a Case Research Champion of Poral Case in Aunt Marie's trailer. Renard never looked very affected by his European Fanly, but the bets are raised as we have learned Renard is actively conspiring against them, and seems to have alliance with resistance. When Monroe recognizes Renard as the man he saw Juliette kissing at the spice store, when they came to help her luxaria say, he says Nick the man was Renard, and Nick finds out that aifnoc aifnoc of An kcin. etnateiugni ašAnaila amu moc meradrocnoe ed setna atruc otium atul amu m'At siod sO .dnaltroP me laer o ©Á yet, and RenardeÁÁAs end game is still not 100 percent clear, but they seem to have common interests at the moment, and I think a certain respect. Neither want the royals to get the keys or the treasure. They continue working together as police officers, and Nick gradually lets Renard into his inner circle - which includes Monroe, Rosalee, Hank, and Bud, the Eisbiber. (waiting for Sgt. Wu to also join that circle and for the interactions between him and Bud) In the previous episode, RenardeÁÁAs half-brother Eric arriving in Portland to meet with Baron Samedi, a Wesen similar to a witch-doctor who can raise an army of the dead. Looks like we have some zombie battles ahead! Always the thinker, Adalind manages to turn a tense moment with Renard to her advantage and seduces him. She becomes pregnant. However, since she has also spent her time away with RenardeÁÁAs royal half brother, shecÁÁAs not sure who the baby's father is. But regardless, the baby is a royal and is apparently worth a lot on the black market. Adalind doesncÁÁAt want wealth, she wants her hexenbiest powers back. As the season winds down, shecÁÁAs playing a dangerous game of bartering with two gypsies, with the two potential fathers are still unaware of her condition. We know the witch doctor and his zombies are back! ÁÁWeeÁÁAve also heard that the show will end with one of the main characters not 100% alive cÁÁÁ my guess is Adalind, but leÁÁAm usually wrong. ÁÁThe title of the episode is cÁÁÁGoodnight, Sweet Grimm, cÁÁÁ so that would hint at Nick. Who do you think this cliffhanger will be about? Do you think weÁÁÁll see Kelly again this episode? I think theÁÁÁs about time. The season started with Kelly, so I think she should make an appearance in the finale. Besides, if royals are heading to town, so should Grimms. Am I right? Also, if wecÁÁÁre going to make any more progress on this map, we need some more key-holding Grimms and royals cÁÁÁ but maybe thatcÁÁÁs for sad oirÁrtnoc oÁ .koobecaF negreB od aicnÁÁdneped ed alacsE a moc koobecaF od ovisecxe osu e otua .laicos essertse .socifÁrgoméd sodad utotaler euq ogap enil-no oirÁnoitsequ ed artsona amu ed snemoh 902 e serehlum 342 marof setnapictrap sO .koobecaF od osu ed ossecxe oa avel euq atsuporp avitngoc aicnÁÁuqes a rartsom a sasneporp siam maires serehlum sa euq ranigami somedop .missa ;sievÁirav sassed amu adac me orenÁÁg ed sašÁnerefid martsom sadassap sasiuqseP .adizuder amitse-otua omoc otsefnam e ocitÁmelborp ranot es edop euq ofÁÁActive ed omsinacem uo / e ed ofÁÁAartsid amu omoc evres sam .essertse od etnof a erbos etnematerid auta ofÁn ele euq me adidem an etnaiveid otmetatnerne ed aig©Átartsé amu ©Á koobecaF od oicÁv o euq somazitetoph sÁn .koobecaF od aicnÁÁdneped e laicos essertse ertne ofÁÁÁaler an orenÁÁg ed sašÁnerefid sa asilana odutse etsE .latnematroppmoc oicÁv mu es-odnanrot .sadvil saus ed saerÁ sartuo moc erefretni euq me adidem an koobecaF o rasu medop ašÁnaifnocotua jÁm e sosnetni siaicos serossertse moc slaudividIneugoG asil .:rodarobaloC)lauriV( aidneÁliat kokgnaB 0202 setra e siaicoS saicnÁÁic erbos lanoicanretnI aicnÁÁrefnoc dn 2noitciddÁ koobecaF e laicos essertse ertne knil oe .serehlum .snemoh .xif koobecaF a rof gmsienoj sepašÁatneserPA 0202 .21 orbmezeDlauriV secneicS ecitsuj lanimirC fo ymedacÁnoitareneG PRAA alep relliK-rod ad ocid©Ám ofÁn osU snoitatneserP1202 .31 lrbaÁ snoitatneserP dna srepaP egelloC ytinummoC notrelluF .siarebil setra .AAasocitÁ sodutsE .ABainrofliaC ed edadisrevinU .aigoloicS .ÁMairnrofliaC ed edadisrevinU .aigoloicS .D hP ofÁÁÁacudE otvsed e edadisrevid sesserelnI asiuqseP 5208-20281 AP .notelzAH evirdY ytserevinU 67 notelzAH etats nneP lanimirC ašÁtsu .socinÁÁadacA sotussÁ ed amargorP od rodaneCtrooC .lanimirC ašÁtsu ed ocigÁM rosseforF elaT yriaF grubnehorT rarieF-ašÁret an ašÁetnoea euq sarepsé euq o e .adaropmet atsed etsatsop omoc? ;aiedri amugIA .adaropmet men indicate a higher probability of facebook dependence and significantly lower levels of self-esteem. one.EHT .Memir fo nesew ehtsnoitneserP laro dna .03 hcram ...nacirema fo erutisf neeh teerts eht .nanemoneph yes that ton snag elam echno fo naP reteP tsinoisiveR ehtSnoitneserP larO dna srepaP4102 .71 lrpArretneserP-oC .peefI tumraH .rotaroballoCASU AL .snaelR weNnoitaicossÁ erutluC naciremÁnoitaicossÁ erutluC ralupoP4102 .32 hcrarMrohtuÁ .naC hilaS ;ocassatF yeliaH .nitraM relyT .seniaH cela .srotaroballoCASU AL .snaelR weNsecneicS ecitsuj lanimirC fo ymedacA ?woH dna ?senriaF Ecilop Deviecep Htiw .eltiaeSnoitaicossÁ erutluC naciremÁnoitaicossÁ erutluC ralupoP"krap htuos" ni yceneqnilE dna emirC o ehtSnoitneserP larO dna srepaP8102 .6 enuJAG .atnaltAygolonimirC fo yteicoS naciremÁnoitareneG PRAA eht yb esU relliK niaP lanicideM-noNsretsoP8102 .51 rebmevoNAP .tropsmaillWsecneicS ecitsuj lanimirC fo noitaicossÁ nretsaehtroN ?spishnoitaleR lanosreP no noitazimitiv fo tceffe eht esaerInI sutatS puorG ytiromiM seoSnoitneserP larO dna srepaP9102 .6 enuJ .spishnoitaleR etamitni tuoba snrecnoc tnev ot aidem laicos enilno no Yler of ylekile erom era nem saerhew .snrentocnoe edeht eraahs eraahs hclhw by SpishnoitaleR EFIL-LAER FO KWOW REDIW ESSOY yam nemow .jecnamoror from the other to the criminology of the Autopopular Culture Association/American Culture Association Washington, DCJUNE 10, 2010Papers and Oral Presentation Police The Professionalization in various communities of the Criminal Justice Association de sciencesbristol, laughing a subset of data from the 2000 administrative and administrative statistics (lemimuns) Sample Research for police agencies and 2000 census data, this study explores the relationship between community diversity and professionalization Municipal police agencies that serve them. The hypothesis is raised that more diverse communities are more likely to be served by highly professional police departments. Professionalization is determined by vain factors, including, among others, mother educational requirements, fanatic, psychological and skill tests, acknowledgment of antecedents and second boring capacity. Do you make the difference? Northeast Association of Criminal Justice Science Science Date of the impact of Community Policing Training and Implementation of the Program on Poral Personnel in Arizona, 1995-1998 (n = 1449) This study analyzes the differences §. Our hypothesis was that minority and female officers would be more open to traditional policing styles (community-oriented policing and problem resolution) and qualify as more able to polish various communities. Preliminary data suggest that minority men are more likely to adapt to community policing and more able to interact with various cultural groups. However, white officers seem more able to evaluate the policing needs of various communities.
